

Post-Concussion Protocol

1. Immediately contact your pediatrician/family physician/neurologist or Emergency room after a suspected concussion or head injury
2. Receive a referral from your physician for the post-concussion treatment
3. Retake **Impact Baseline Test** upon Physician request
4. Follow all therapy & baseline testing protocols of the rehab facility
5. Ask the rehab facility to provide you with all post-test baseline information & documentation
6. Follow-up with pediatrician/family physician/neurologist post-concussion to have all concussion information and care listed in your child's medical record
